What We Do

The Server Room Environments team has over 35 years of experience working within server rooms and data centre environments across a range of vertical markets. Our knowledge and experience means that we know how to supply, install and maintain the right power, cooling, monitoring and security solutions for any critical environment.

Cooling
Splits, CRACs and In-row systems.

Power
500VA to 6MVA UPS systems, single and 3phase PDUs and Generators.

Energy
Renewables, battery storage and metering.

Fire Suppression
Room and rack mounted systems, integrity testing and fire protection.

Environmental Monitoring
Room and rack level monitoring with over 30 sensor options.

Server Racks
4U to 47U cabinets and outdoor enclosures.

Bespoke Manufacturing
Working with approved UK manufacturers.

Consultancy Services
Design & build, audits, site surveys and business continuity plans.

Installation Services
Electrical works, battery builds and maintenance contracts.

What We Provide

Industry leading services to ensure we deliver an outstanding project for your site.

Design & Build
From initial design to modelling, buildout, testing, training and handover with ongoing support.

Electrical Installation
ECA approved electrical works, testing and certifications.

Project Management
Experienced project managers to deliver a first class installation for your site.

Maintenance Contracts
4 clock or 8 or 12 working hours response with 24/7 support.

Consultancy
Audits, inspections, energy efficiency surveys and business continuity planning.
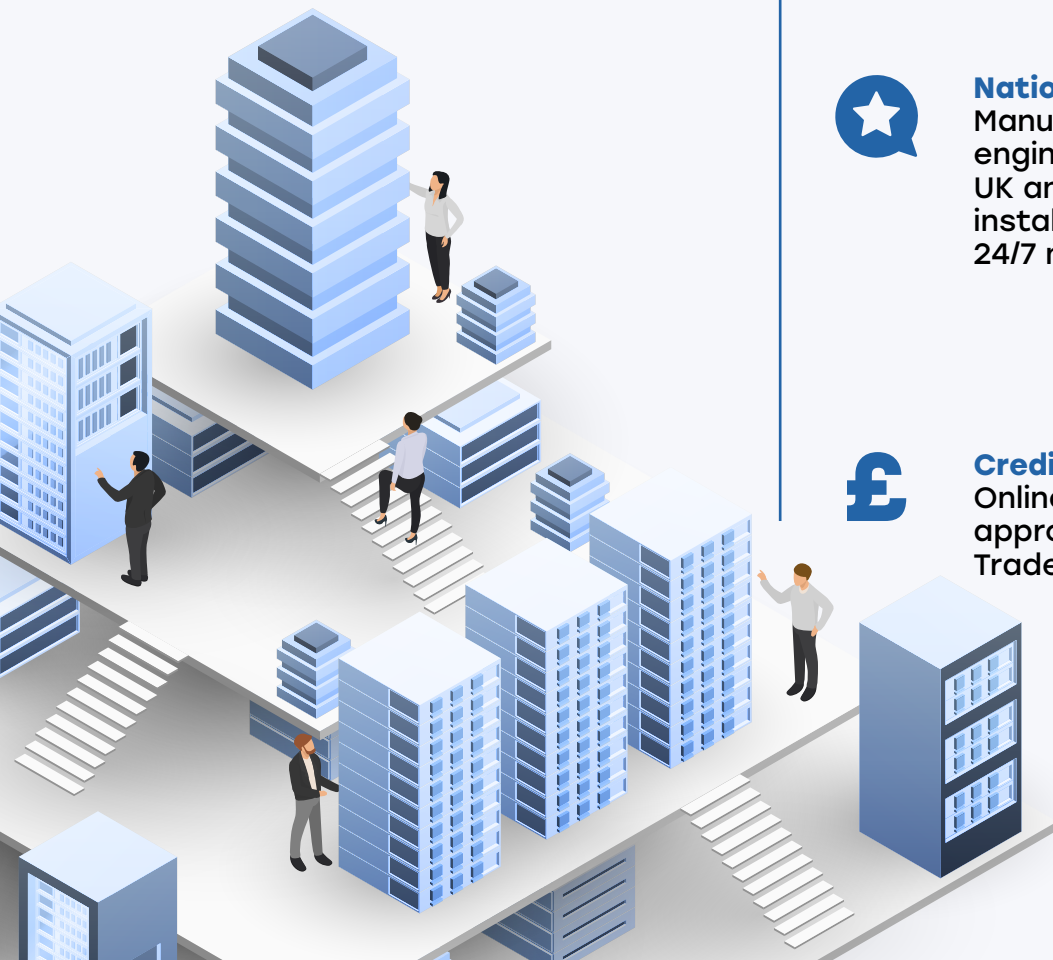

Repairs and Replacement
Air conditioner repairs, UPS battery testing & replacements, and end of life disposals.

SRE

Our Goals and Service Levels

We provide comprehensive solutions to protect, monitor, and control your server room, data centre, comms room, and IT networks. Our products are available for direct purchase or as part of a fully managed project, delivered by our expert team.

Next Day Deliveries
From our UK stock warehouses and partner hubs. We aim to provide fast order processing and delivery to meet your timescales.

Free Expert Advice
Our engineers provide advice and guidance to help you find the right solution and are available 7days a week.

Nationwide Service
Manufacturer certified engineers across the UK and Eire providing installation services and 24/7 maintenance contracts.

Price Check Guarantee
We constantly check our prices and provide price difference protection.

Credit Accounts
Online application for a fast approval including access to Trade pricing.

Carbon Offset
We are a sustainable company, registered for WEEE and offset our carbon footprint.

Client Testimonials

Projects Delivered

> Server Room Environments has been one of the best partners I've ever had the pleasure in dealing with. They are incredibly smart & hard working.

> Communication and delivery level of service is the most challenge in the UK at the moment. However, you guys exceeded my expectations on these aspects. I would definitely use them again and I strongly recommend them.

> All was perfect. We have been assisted to chose the right product, then we have had perfect communication until the delivery of the products. The delivery took a little more than expected, but this is something understandable due to Covid 19 lockdown situation.

Website Orders

> Excellent Advice and Excellent Products. Vast Range. All your DC needs under one roof!

> Absolutely brilliant service. Great quality, very helpful, with instructions and ensuring we had the right model.

> We were looking for equipment for our business and came across Server Room Environments because the pricing was excellent. The whole process was quick and easy. Great website, ordering, receipts and delivery. We have used them again since and have now added them on our suppliers list.

After Sales Service

Supply, Installation and Maintenance

Our goal is to deliver the most cost effective solution to meet your project requirements and specifications.

Onsite projects often start with an initial discussion with our technical experts before moving to a site survey and quotation. Our after sales services include maintenance contracts, emergency call outs, spares, repairs and testing.
